

Cinevate Duzi v4 proficiency - 2017

To be considered “Proficient” on the Cinevate Duzi v4, knowledge and agreement follow these standards is required:

1) Building :

- Unbox items.
- Attach all terrain legs.
- Position legs
- Remove/attach fly wheel
- Attach /remove Head

2) Mounting to tripod

- Lock/unlock the carriage
- Attach to tripod.
- Always lock carriage in centre position before moving.
- Slide the with/without the flywheel

3) On set movement:

- Move carriage all the way to the left or right, and lock the carriage
- **Always** with the carriage side down, Carry the slider in upright position
- Never use the legs to carry the slider.

4) Break Down

- Remove the head from the carriage
- Carefully remove the legs. **DO NOT LOSE THE WASHERS**
- Place all parts back into the case in proper sections.

I have read, understand and demonstrate knowledge of the above procedures. I agree to handle the Duzi following the procedures.
